What is Direct Instruction?

Direct Instruction (DI) is a model for explicit teaching that emphasises well-developed and carefully planned lessons designed around small learning increments and clearly defined and prescribed teaching tasks. It is based on the theory that clear instruction eliminating misinterpretations can greatly improve and accelerate learning.

Its creators, Siegfried Engelmann and Dr. Wesley Becker, and their colleagues believe, and have proved, that correctly applied DI can improve academic performance as well as certain affective behaviours. It is currently in use in thousands of schools globally including the US, Canada, the UK and Australia. Schools using DI accept a vision that actually delivers many outcomes only promised by other models.

DI Programs – Over 40 Years of Research

DI Programs are based on years of research on how children learn and the most effective ways to teach. Project Follow Through, the largest educational experiment ever conducted, was the first large-scale documentation of DI's superiority. Since that time many studies in a wide variety of settings have shown that children who receive Direct Instruction have significantly higher achievement, make more rapid educational progress, and have higher levels of self-esteem than students in other programs. Studies also show that as their students' achievement increases, teachers who use Direct Instruction become more self-confident and assured of their professional abilities.

Studies involving DI curricula and its implementation have been conducted with a wide variety of populations, in different settings and within all subject areas related to the programs. As such, the volume of research on DI is expansive. The National Institute for Direct Instruction (NIFDI) makes this extensive research base more accessible to educators and researchers through a free online database of over 200 entries. To access this database, visit:

<https://www.nifdi.org/research/database/di-research-database?view=publications&layout=tabular>

What Makes ALEKS Different?

The artificial intelligence engine in ALEKS provides differentiated and individualized instruction, so students have a high degree of success with ALEKS despite wide and varying gaps in knowledge. The ALEKS AI determines what the student has mastered, not mastered, and is ready to learn.

ALEKS technologies are derived from research in Knowledge Space Theory. The research behind ALEKS is discussed in “The Assessment of Knowledge in Theory and in Practice,” available at www.aleks.com/about_aleks/research_behind. Since 1999, ALEKS has been used successfully by millions of students globally from the third grade through higher education in mathematics, science, and business.

Phonemic Awareness

Phonological and phonemic awareness for early learners

Grades PreK–1

Phonemic Awareness is a complete program for developing phonological and phonemic awareness.

- ▶ Uses phonemic awareness to establish the early framework necessary to help Pre-K–1 students become fluent and confident readers
- ▶ Supplements *Language for Learning* and the kindergarten level of *Reading Mastery*
- ▶ Makes focused intervention easier with a comprehensive scope and sequence
- ▶ Teaches all levels of awareness by presenting a developmental progression of skills
- ▶ The program contains 110 15-minute lessons featuring activities that follow the developmental sequence for teaching all levels of phonological awareness

Teacher Edition	978-0-07-609444-8	\$417.95
Additional Picture Cards	978-0-07-609443-1	\$124.95

Language for Learning

Grades PreK–2

Language for Learning is a comprehensive oral language program that teaches your students the words, concepts and statements important to both oral and written language.

Components

Language for Learning Teacher Materials: Spiral-bound Presentation Books (4); Teacher's Guide; Answer Key; Behavioral Objectives Book; Skills Profile Folder; Picture Book for Assessment.

Student Materials

Workbook A/B	978-0-07-609428-8	\$28.95

*Developed by SRA for use with *Language for Learning* and not considered a component of the program

Language for Thinking

Grades 1–3

Language for Thinking builds on the concepts, vocabulary and statement patterns introduced in *Language for Learning*. Sequenced activities, vocabulary development, extensive practice, sequencing and retelling exercises, and inference activities set the stage for reading comprehension and the grammatical analysis of written language.

Components

***Language for Thinking* Teacher Materials:** Spiral-bound Presentation Books (3); Teacher's Guide; Answer Key; Behavioral Objectives Book; Skills Folder; and Student Picture Book and Workbook.

***Language for Thinking* Mastery Test Package:** Teacher Handbook with Blackline Masters and Picture Book.

Early Interventions in Reading

Transform struggling readers into skilled readers

Grades K–2

SRA Early Interventions in Reading provides early intensive support to prevent reading difficulties before patterns of failure are established. The program builds mastery through explicit instruction in five critical strands—phonemic awareness, letter-sound correspondences, word recognition and spelling, fluency and comprehension.

Features

- ▶ Targets instruction for phonemic awareness, print concepts and decoding
- ▶ Saves you prep time with integrated technology
- ▶ Offers vocabulary and concept instruction
- ▶ Includes the *SRA 2Inform* program which collects and interprets student data

Benefits

- ▶ Reading skills of at-risk students are positively affected
- ▶ The gap between average performers and struggling readers is closed
- ▶ Students sustain a higher level of achievement into Grades 2 and 3
- ▶ Ninety-eight percent of students learn to read within the normal range for Grade 1 students

Components

Level K Teacher Materials: Teacher's Editions A, B, and C; Read-Aloud Book; Pictures for Language and Literacy Support Book; Placement and Assessment Guide; Letter-Sound Cards (26); Picture Magnets (140); Stop and Go Game Set; Staff Development Guide; Student Activity Book (1); Hand Puppet; and Teacher Online Subscription and SRA 2Inform Online Progress Monitoring, 6-year access.

Spelling Through Morphographs

Grades 4–Adult

Spelling Through Morphographs is designed to give your older students the tools they need to catch up on key spelling skills. The program teaches a variety of morphographs (prefixes, suffixes and word bases) and a small set of spelling rules for combining them. Fast-paced lessons, a systematic review of every morphograph and a few simple spelling rules will ensure that your students master spelling strategies. Ideal for use in middle schools and secondary schools, with no streaming requirements.

- ▶ Introduces a spelling strategy and reliable rules that students can use to spell over 12,000 words
- ▶ Boosts vocabulary skills by teaching the meanings of common morphemes
- ▶ Improves students' ability to decode multisyllabic words with instruction that focuses on word structure
- ▶ Reinforces the connection between spelling and composition with expanded writing and proofreading activities

Components

Teacher Materials include: 2 Teacher Presentation Books and Teacher's Guide.

Reading Mastery

Signature Edition

Comprehensive reading and language arts program for whole class or intervention

Grades PreK–5

Reading Mastery uses Direct Instruction to help students develop into fluent, independent and highly skilled readers. It offers a highly explicit systematic approach that accelerates reading and helps students achieve high levels of success.

Three strands—Reading, Language Arts, and Literature—can be implemented separately or combined to provide a comprehensive Reading/Language Arts curriculum.

- ▶ **The Reading Strand** addresses all five essential components of reading; helps students connect encoding and decoding; and develops comprehension skills that transfer to other subject areas (Grades K-3)
- ▶ **The Literature Strand** presents a variety of literary forms and text structures that allow students to practice vocabulary and comprehension strategies as a group and independently (Grades K-3)
- ▶ **The Language Arts Strand** teaches the language skills needed to understand what is written, read, and spoken while also preparing students to communicate effectively (Grades K-5)
- ▶ **Student Materials** include storybooks that are more than 95% decodable; workbooks with comprehension activities; and test books to measure student progress
- ▶ **Teacher Materials** include presentation books with lesson plans for reading and spelling; and a curriculum-based assessment and fluency handbook to track student skill mastery
- ▶ **Program Resources** includes Online Professional Learning Courses
- ▶ **The Literature Strand** includes theme-related trade books; a Read-Aloud Library of 30 books featuring quality narrative and expository text; and a Read-Aloud Teacher's Edition that presents explicit lessons on vocabulary-building and comprehension exercises

*Developed by SRA for use with *Reading Mastery® Signature Edition* and not considered a component of the core program

Reading Mastery Transformations – New Edition September 2020

A new edition of *Reading Mastery* will be available from September 2020. Detailed information and pricing on the new edition will be added to this catalogue in June 2020. *Reading Mastery Signature Edition* will continue to be available for schools who do not wish to switch to the new edition.

For more information, please contact your local McGraw-Hill Education Consultant.

Expressive Writing

Grades 4–Adult

Students learn to express ideas and communicate clearly. The easy-to-use approach focuses on the writing and the editing of basic sentences, paragraphs and stories. Instructional strands include Mechanics, Sentence Writing, Paragraph and Story Writing, and Editing.

Components

Expressive Writing Teacher Materials: Presentation Book and Teacher's Guide 1–2.

Level 1

Workbook..... 978-0-07-603589-2 \$28.95
Teacher Materials..... 978-0-07-603587-8 \$249.95

Reasoning and Writing

Grades K–8

In *Reasoning and Writing*, higher-level thinking skills combine with writing skills to help your students express their ideas efficiently and effectively. From the earliest levels, lessons build around vibrant stories, giving students an awareness of logical connections and narrative structures. Carefully planned lessons build:

- ▶ An understanding of narrative structure
- ▶ Punctuation, capitalisation and usage skills
- ▶ Skills essentials for clear, strong writing

Features

- ▶ Tightly-sequenced instruction ensures that concepts are continually applied and consolidated
- ▶ Relevant practice in mechanics, usage and grammar refines editing skills and shapes better writing
- ▶ Writing assignments based on previously taught skills help boost your students' confidence
- ▶ Analysis and logic skills improve the way students communicate in all subject areas

Components

Teacher Materials: Presentation Book; Teacher's Guide; Answer Key.

SRA Reading LABORATORY®

Grades 1–10

As one of the earlier personalised learning programs, *SRA Reading Laboratory®* has improved the reading and independent learning skills of more than 100 million students, becoming one of the most trusted names in reading. With an easy-to-use box of self-guided and levelled readers, *SRA Reading Laboratory®* develops confident readers through supplemental and personalised K-12 reading content that ensures each student is working at the right level and moving ahead at his or her own pace.

- ▶ Builds comprehension, vocabulary, fluency, word analysis and independent study skills
- ▶ Initiated quickly with simple placement and progress guidelines
- ▶ Empowers students to monitor their own progress and partner with the teacher to determine readiness to move on to the next colour-coded reading
- ▶ 50% fiction and 50% non-fiction reading selections
- ▶ Provides a sense of accomplishment when finishing and moving on to the next colour

What's New

- ▶ 25% of reading selections are completely new to the new edition
- ▶ Now includes Lexile® measures for all readings
- ▶ All reading selections reviewed and updated for current factual information and aligned with today's academic integrity standards
- ▶ Refreshed overall design and look-and-feel
- ▶ Print-only eliminates the need for dependency on devices or Wi-Fi

The original comprehension box, new and updated in 2019

To help choose the right reading laboratory for your class, consult our reading ages level guide at www.mheducation.com.au/schools/literacy/reading-laboratory

SRA Reading Laboratories® Student Record Books

Grades 1–10

The Student Record Books help enhance each student's learning experience by creating one place to record all their answers to the Reading Lab exercise questions on special record pages. Students can correct mistakes, record scores and chart their progress through the Power Builders. The books also contain a description of procedures, sample pages of trial exercises, and helpful suggestions for effective reading and study habits. Updated to match the new editions of the SRA Reading Laboratories®.

Specific Skills Series for Reading

Grades PreK–8

SRA Specific Skills Series for Reading is a proven program that has been helping teachers reinforce their students' comprehension skills for over 30 years. The series helps to improve your students' proficiency in nine key comprehension skills areas using the high-interest, engaging reading selections and targeted practice exercises.

The series provides ideal preparation for NAPLAN™ testing by introducing students to the question styles they can expect in an exam. As their skills improve, so too will their ability to use them confidently in a testing environment.

Students in Grades Pre-K-8 will all benefit from the focused skills practice that these levelled, supplemental programs provide.

Components

Each Single Level Starter Set includes: 1 Book of each of the 9 skill areas (Cause and Effect; Compare and Contrast; Drawing Conclusions; Identifying Fact and Opinion; Finding Details; Getting the Main Idea; Making Inferences; Sequencing; Using Phonics).

1 Teacher's Manual with: Answer Keys; Blackline Masters; Class Record Sheet.

Connecting Math Concepts: Comprehensive Edition

Comprehensive Maths DI Program for whole class or intervention

**Siegfried Engelmann, Douglas Carnine,
Bernadette Kelly and Owen Engelmann**

Grades K–5

Connecting Math Concepts: Comprehensive Edition works as a core program or as a Tier 3 intervention for at-risk students. Facts, procedures, conceptual understanding, applications and problem solving skills are combined in this program to provide a comprehensive curriculum for students.

- ▶ Introduces key concepts over the course of multiple lessons—providing the time students need to learn, process and build a deep understanding
- ▶ Delivers new online resources that effectively instruct, manage and monitor student progress
- ▶ Teaches explicit strategies and processes to accelerate student achievement
- ▶ Interactive White Board Displays allow teachers to display instructional math visuals and problems to help students follow daily routines
- ▶ Student eBook and Textbook includes teacher and student-guided exercises online
- ▶ Student Workbook contains mastery tests and two practice tests
- ▶ SRA 2Inform offers online progress monitoring and precise reporting for teachers

Components

Connecting Math Concepts Teacher Materials Level A-F: Presentation Books, Teacher's Guide, Answer Key, Board Displays, Workbook, Online Teacher Subscription (6 Years), and 10 Online Practice Activities Student Subscriptions (6 Years), Online Professional Learning Courses.

Essentials for Algebra

Siegfried Engelmann, Bernadette Kelly and Owen Engelmann

Grades 7–12

Engage struggling students

Ensure that under-performing students master pre-algebra content and learn introductory concepts in traditional Algebra with this structured year-long course. Students learn to process a wide range of problems and solve complex problems independently.

Components

Teacher Materials: Spiral-bound Presentation Books (2); Teacher's Guide; Answer Key; Board Displays; and Online Teacher Subscription (6 Years).

Student Materials

Workbook.....	978-0-07-602193-2	\$23.95

DIRECT
INSTRUCTION

Grades PreK–8

Accelerate maths success for struggling students with a comprehensive maths prevention and intervention program.

Features

- ▶ Engage students with projects, games, activities and digital resources
- ▶ Assess student achievement with dynamic digital assessment and reporting

Benefits

- ▶ **Building Blocks™ activities** are adaptive, research-proven online activities designed to engage students and reinforce mathematical development
- ▶ **Digital manipulatives** support reasoning skills and problem solving by allowing students to explore virtually while modelling maths concepts
- ▶ **Online assessments and reports** help teachers and administrators record and monitor student progress at the student, class and school level

Prevention Levels (A–C) are designed to systematically teach students the foundational skills and concepts needed to succeed with maths.

LEVEL A Building Foundation for Kindergarten	LEVEL B Kindergarten Key Standards	LEVEL C Grade 1 Key Standards
Students learn well-developed counting and quantity schemas	Students develop a solid understanding of single-digit numbers	Students refine their understanding of the number system

Intervention Levels (D–J) focus on foundational skills and concepts to meet key standards for grades 2–8. Each level contains five units that are six weeks in length. Each unit focuses on concepts aligned to the core mathematical domains.

Topics Per Grade and Unit

	LEVEL D Grade 2	LEVEL E Grade 3	LEVEL F Grade 4	LEVEL G Grade 5	LEVEL H Grade 6	LEVEL I Grade 7	LEVEL J Grade 8
UNIT 1	Number Sense within 100	Number Sense	Number Sense	Number Sense	Number Sense	Number Sense	Number Sense
UNIT 2	Number Sense within 100	Addition	Addition & Subtraction	Multiplication & Division	Operations Sense	Operations Sense	Operations Sense
UNIT 3	Addition	Subtraction	Multiplication	Operations with Decimals	Algebra	Algebra	Algebra
UNIT 4	Subtraction	Multiplication & Division	Division	Operations with Fractions	Statistical Analysis	Statistical Analysis	Statistical Analysis
UNIT 5	Geometry & Measurement	Geometry & Measurement	Geometry & Measurement	Geometry & Measurement	Geometry & Measurement	Geometry & Measurement	Geometry & Measurement

Number Worlds Prevention Package, Levels A–C:

Teacher Edition; Playing Card Sheets; Placement Test Guide; Implementation Guide; Instructional Activity Cards; English Learner Support Guide; Games and Manipulatives (for five students); and six-year online Teacher Subscription.

Number Worlds Intervention Package, Levels D–J:

Teacher Edition; Practice BLM Book; Playing Card Sheets; Placement Test Guide; Implementation Guide; English Learner Support Guide; Placement Test Book; Games and Manipulatives (for five students); and six-year online Teacher Subscription.

Student Materials Bundle: Complete print and digital student resources for five students: Student Workbooks (Level C [5], Levels D–J [25]) and online Student Subscriptions (one-year).

Manipulative Plus Pack: Games and Manipulatives needed to teach the program for an additional five students.

Number Worlds Online Teacher Subscription:

Teacher Dashboard; Building Blocks; Digital Tools and Manipulatives; Online Assessment; Conceptual Development Activities; Professional Development Resources; Workbook Displays; and Interactive Gameboards.

Number Worlds Online Student Subscription: Student Dashboard, Building Blocks; Digital Math Tools and Manipulatives; and Online Assessment.

Inspire Science

Grades K–5

While career opportunities in Science, Technology, Engineering and Math (STEM) increase each year, qualified candidates for these careers continue to fall short. This is known as the STEM gap. This gap represents a great opportunity for the students in your classrooms today to become the innovators of the future.

The pace of change is accelerating. The challenges your students will face in their careers will likely be ones that don't even exist yet. Their future will require problem-solving skills that go beyond the status quo. *Inspire Science* is designed to help today's students prepare for any future they may face through an emphasis on problem-based and career-based learning. With *Inspire Science*, your students will learn to think like scientists and engineers, and develop the skills they need to create solutions to everyday challenges.

- ▶ *Inspire Science* helps students build innovative thinking skills by empowering them to explore and learn from our world's amazing natural phenomena in exciting, hands-on ways
- ▶ Embrace teaching science with this simple, user-friendly teaching experience
- ▶ Get more out of science time with built-in literacy and maths connections
- ▶ Hands-on activities and performance tasks provide students with the opportunity to expand content knowledge and demonstrate skills in science and engineering
- ▶ Digital simulations and game-based learning support deeper conceptual understanding
- ▶ Teachers are supported with extensive online professional development and videos
- ▶ Modular course content makes the program easy and flexible to use to suit your needs

Components

Online Student Center with Print Student Edition:

Print book plus digital version with audio, dynamic tools, text highlighting and more.

Online Teacher Center with Print Teacher Edition:

Print Teacher's book with additional Teacher Resources, videos and more.

Collaboration Kit: contains hands-on activity materials clearly labelled and correlated to each module.
